

Vane compressors Mattei online

Posted 10 June 2016

Mattei renewed its corporate **website**, with a graphic restyle to be more user-friendly and immediate, offering new sections and contents showing the advantages of the **rotary vane compressors** technology. It offers a quick access to the different compressor models, with detailed **technical data sheets** providing features and strengths of each of them, allowing users to compare the models and choose the compressor which mostly suits their individual requirements. It also highlights the quality and the wide range of **customer care services** offered, from after-sales servicing to **warranty extension** options.

The site also offers a useful study on the topic of **energy saving**, another one of the many strengths of Mattei compressors, and presents most significant **case studies** and a space dedicated to the 'value proposition' of the company, providing visitors the tangible advantages of the Mattei's unique vane technology. The Resources menu, at last, provides a series of useful information tools to find out more about Mattei's products and services, from the Vane magazine to **e-books**, FAQs and videos, press releases and press cuttings. A reserved area also offers access to the company's **Facebook**, **Twitter**, **LinkedIn**, **Google+** and **YouTube** pages.
